

Future Digital Footprint Ltd is a small boutique software company that develops monitoring software solutions for the education sector. Our mission is to enable the digital generation whilst ensuring their safety and wellbeing. To support our growth aspirations, including our expansion into other market sectors and internationally, we are seeking to appoint a Chief Technology Officer.

Job Description – Chief Technology Officer (CTO)

The CTO is responsible for overseeing all aspects of software and technology development across the business. The role is critical to the company's growth aspirations and the CTO is an integral member of Future Digital's executive team. The role reports into the CEO.

Responsibilities:

Strategy

- Develop and own the company's software/technology vision and road map
- Represent the company and provide thought leadership at industry forums and attend customer meetings
- Works in a consultative fashion with the other members of the executive team, particularly the Sales Director

Management

- Line management of all technology staff, including the setting of personal objectives and development plans
- Establish an in-house core team of software programmers
- Develop and manage commercial relationships with suppliers, sub-contractors and industry partners
- Ensure the technical support team operate effectively and efficiently
- Oversee the company's in-house IT requirements

Financial

- Own the department's budget and manage its resources efficiently
- Safeguard the company's intellectual property

Future Digital, Customer Services and Finance - Suite 4, Basepoint Business Centre, Aviation Business Park,
Enterprise Close, Christchurch, Dorset BH23 6NX

t: +44 (0) 203 846 0080 | f: +44 (0) 845 862 4048 | e: enquiries@futuredigital.co.uk | www.futuredigital.co.uk

The successful Candidate will have:

- Established track record as a leader and visionary in a software development environment
- The ability to demonstrate an understanding of future technology and software requirements/platforms, especially cloud based solutions
- Previous experience of hands-on software programming is highly desirable
- Evidence of having delivered complex software development projects on time and to budget
- Exceptional leadership, people management, interpersonal and communications skills
- University degree or equivalent in a relevant IT related subject and relevant further qualifications/accreditations. Additional business or project management qualifications are highly desirable.

This is an excellent opportunity to join a young, fast growing and ambitious company that provides the opportunity for the right candidate to make a real impact. In addition to a competitive salary and great working environment, we offer an attractive incentive package and the opportunity to participate in a management equity plan. We are looking for individuals who are dynamic, flexible, innovative and highly motivated.

The role will be based at our offices in Bournemouth and will require some travel (mainly to London and within the UK).
